CONNECTING TO THE BIG PICTURE

How could new members
add real value to advance
our strategic priorities?

Are there gaps in our
existing networks or circles
of influence we must fill?

What's unique to our situation,
environment or aspirations now
that demands leadership?

Do we have the expertise,
knowledge and skills to do
what we must accomplish?

Do we have who and what
we need to break through
obstacles we fear are ahead?

Does the overall board provide a diversity
of perspectives and qualities (i.e. age,
gender, ethnicity, etc.) to represent
stakeholder interests?
